Report of the Board of Selectmen

The Board organized for the year with Peter F. Warakomski, Chairman, Herbert W. Bishop, Clerk and George B. Cheney, third member.

Various highway projects approved at the annual meeting and under control of the Selectmen were carried through to completion with the exception of a few road improvement projects which could not be completed before the end of the year. These projects will be completed as soon as weather permits.

At the annual meeting the voters approved Chapter 90 projects totalling \$32,050 for the improvement of Palmer Road, Three Rivers, Springfield Street, Three Rivers and Commercial Street, Thorndike. However, work on these projects was postponed by the State and County due to the construction of the Church Street Bridge, Thorndike, the cost of which exhausted the State and County Chapter 90 allotments for the year. The Board has received advice from the State Department of Public Works that work on the Springfield Street and Commercial Street projects have been approved for 1954 at a cost of \$26,000.

During the year the old highway garage on North Main Street was sold and contracts let for the construction of a new highway garage on town owned land on Depot Street. Construction has been completed and the Highway Department is now at the new location.

Memorial Hall on Central Street was returned to control of the Selectmen and considerable redecorating and repairs were completed during the year. Arrangements for rentals can now be made through the Selectmen's office.

A World War II Memorial was erected at a site on Converse Street adjacent to the High School and was dedicated on November 15 with appropriate ceremonies.

The Board wishes to express its thanks to the various town departments for cooperation throughout the year.

Respectfully submitted,

PETER F. WARAKOMSKI
HERBERT W. BISHOP
GEORGE B. CHENEY

1953 Town Clerk's Report

VITAL STATISTICS

The attention of parents and others is called to the following Vital Statistics. It is important that the records should be correct. If any errors or omissions are discovered, the Town Clerk will deem it a favor to have the same reported to him at once, and he will make the corrections in accordance with the law. Parents should also know that a proper return of birth is made as it may be of great importance in after life.

PETER E. PAPPAS, Clerk

Report of Chief of Police

To the Honorable Board of Selectmen,

Town of Palmer, Mass.

Gentlemen:

The annual police report for the year ending December 31, 1953 is submitted for your consideration.

During the year 480 complaints were prosecuted in the District Court of Eastern Hampden against 397 males and 22 females. Sixteen delinquent complaints were issued against juveniles. Twelve stolen automobiles were recovered, five fugitives were taken into custody and 121 summons were served for other departments.

It is pleasing to report Palmer had no automobile fatalities during 1953. Forty-four persons suffered injuries in twenty-three accidents.

The cruiser and motorcycle covered 33,876 miles. These patrols afford protection throughout the town especially during the evening and early morning hours.

The only change in the personnel of the department was the resignation of Patrolman James F. Carter.

I wish to take this opportunity to thank the various agencies and citizens for their quick response and assistance rendered November 23, 1953, the date of a railroad crash in Palmer.

All the officers have performed their duties creditably. The regular officers have been generous with their time especially in emergencies.

To your Honorable Board I desire to express my sincere appreciation for your many kindnesses as well as the splendid cooperation extended to the department.

Respectfully submitted,

JAMES F. DONAHUE

Chief of Police

Report of Moth Department

Amount Appropriated	1,500.00	
Expenditures	1,451.00	
Balance		49.00

Honorable Board of Selectmen:

Gentlemen:

Not since the stripping of the Northeast section of Palmer in 1938 has our area been so seriously threatened by mass infestations of the Gypsy Moth. Just eight miles East, Northeast of Palmer, millions of Gypsy Moth egg clusters are awaiting Spring to hatch and send caterpillars on their mission of stripping foliage.

So serious is the situation that before our State Legislature, a bill is being debated for pooling one half the cities and towns Gypsy Moth liabilities to be used in aerial spraying, the most effective method of fighting woodland infestations with over 800,000 acres being menaced.

Our local situation is quite favorable, the Town being comparably clean, but should this spreading continue, our local area would be seriously threatened.

One of the favorable aspects of the Gypsy Moth is the weather. Favorable hatching and egg laying seasons are mainly responsible for its rapid rate of increase. The mild winters of the past years are also determining factors, since the egg clusters cannot stand extremely cold weather. Temperatures of 25° below or colder are usually fatal to the exposed egg clusters.

Dutch Elm Disease

Amount Appropriated	2,600.00	
Expenditures	2,598.00	
Balance		2.00

The Dutch Elm situation remains grave. Fifty-three trees were checked and samples submitted to laboratory tests, found them diseased.

A noteworthy significance disclosed that only nine infected trees were found in the tree belts. The remainder were on private property and fields out of range of the spray machine, establishing the fact that spraying is the most effective method of control.

A sanitation program of disposal of diseased trees, a constant spray program of both private and public trees are the only effective means of dealing with this menace. There is no other way.

Respectfully submitted,

STANLEY J. STRZEMIENSKI

Moth Superintendent

Report of Park Commissioners

To the Selectmen and Citizens of Palmer:

The Park Commissioners, in submitting their annual report for 1953, again express their appreciation of the cooperation of the townspeople in making full use of the recreational facilities which we have.

During the year a Memorial to the youth of our Town who lost their lives in World War II has been erected on park land at Converse Street, through the cooperation of the several Veterans organizations of the Town and a special committee appointed by the Town Moderator.

The proposed Wading Pool at Eager Playground has not been built, principally because all bids for the project were considerably in excess of funds available. New plans and specifications are being prepared and the Cady bequest is still being reserved towards this purpose.

It now seems probable that the Massachusetts Toll Highway will pass through Burleigh Park, and will seriously impair, if not destroy our facilities there, and serious thought is being given to arrangements to replace the picnic area and pool in the event the present acreage is taken over for highway purposes. It seems probable that Burleigh Park can be used through most of 1954.

Through the generosity of the Endleson family, a tract of land is being given to the Town for park purposes in Bondsville and arrangements are being made to furnish playground equipment in that village as soon as the necessary legal formalities of the land transfer are completed. The Commissioners express their thanks to members of the Bondsville P.T.A. for their assistance and cooperation in this matter.

Attendance at Legion Field and Eager Playground as well as at the playgrounds in Three Rivers and Thorndike has continued

high throughout the season and the various properties as well as our equipment have been well maintained.

Adult Fiction	8,235
Adult Non-Fiction	5,638
Juvenile Fiction	1,673
Juvenile Non-Fiction	957
Reference	752
<hr/>	
Total	17,255

During the year a total of 621 new volumes have been placed in circulation and 1240 others have been repaired or rebound. Several books have been received as gifts from organizations and individuals, for which the Trustees of the Association express their thanks. Our encyclopedia and other reference works are being continually revised and kept up-to-date. There is a steady use of the Library's facilities by local students as well as active demand for fictional works for pleasure reading. Our non-fiction department continues to be an increasing factor in the Library service and is being used by a large number of our townspeople.

Many obsolete volumes have been discarded during the year and others will be taken off the shelves in 1954 to provide space for up-to-date reading and reference works.

The Library has facilities for obtaining almost any book or periodical, and townspeople are requested to ask for any book they wish to use. If we do not own a copy, the Library will ob-

tain one from a larger institution or, if there appears to be a sufficient demand will be glad to purchase the book for our own shelves. It is our constant effort to see that the Library continues to serve the needs of the Town and townspeople.

Report of the Tree Warden for 1953

Amount Appropriated	\$2,200.00
Amount Spent	2,197.76
	<hr/>
Balance	2.24

The Tree Department in 1953 had a routine year as far as tree care was concerned.

We took broken limbs and dead wood out of sixty-five trees that were dangerous to people and overhanging roads and sidewalks.

We took down forty trees in the various villages where new roads, new sidewalks and new homes were being built and were being obstructed by these trees.

We raised branches which were hanging low over sidewalks, house roofs and garages.

We took down several trees that were badly damaging house foundations, and raising sidewalks, making them dangerous to pedestrians walking there.

We had two bad storms during the summer months which caused a great many broken branches which had to be removed. We had several trees blown down during these storms which had to be taken care of. We planted ten trees in various places in town where trees had been removed and new streets developed and where no trees existed. This department believes that a number of trees should be planted to offset the number of trees removed in the past three years, because of the Dutch Elm Disease.

This Disease is still with us and although the elm trees in Palmer were much healthier this year than in the past five years, due to a good spray program and eliminating infected trees, the threat is still with us.

We should continue this program of care and prevention in the hope of completely eliminating this threat.

WALTER H. CAMBO, Tree Warden

Report of Forest Fire Warden

December 31, 1953

To the Board of Selectmen

Town of Palmer, Mass.

Gentlemen:

I herewith submit my report as Forest Warden of the Town of Palmer for the year ending December 31, 1953.

This department answered a total of 28 calls this past year.

Due to the serious dry condition prevailing thruout this area this year we had one very disastrous fire occurring in October. This fire was controlled only thru the cooperation of the surrounding towns who sent in help and equipment to aid us in combating this serious threat, especially to the property owners in the Lake Thompson area. This was the most expensive fire occurring here since the two large fires back in the year 1947.

The equipment of the department is in good condition with the exception of the main radio station which in my judgment should be replaced with one of more power and more modern than the one we now have. I recommend the appropriation of \$675.00 to replace the main transmitter and receiver in our headquarters. Next year we should replace the mobile unit in our forest fire truck with a more modern unit. Radio is one of the most necessary items in our equipment and without it this department is at a serious handicap.

Each year I stress in this report the necessity of obtaining a permit for Open Air Fires. Permits are necessary at all times of the year and may be obtained by calling the Warden by phone.

Incidentally this department has issued over 4,000 permits to burn in the open this past year. This is a record number with this department.

I wish to thank your honorable board for the fine cooperation you have given me this past year. It is most encouraging in fighting fires against odds to have a board of selectmen to turn to for support in emergencies.

Respectfully submitted,

VICTOR M. FRENCH

Annual School Report

To the School Committee of the Town of Palmer:

I submit herewith my third annual report, the sixty-first report of the town.

Repairs.

The front cement stairs of the high school were reconstructed, and the entire front of the building and the sides as far as the side entrances were repointed and waterproofed. All portions of the building were repointed, and new sills and roof capstones were replaced where needed.

Floors in the high school on the first floor were sealed and waxed. The second-floor rooms will be done this coming year.

The playgrounds of the Bondsville and Park Street Schools were resurfaced during the summer.

A new floor was laid in one room at Park Street, and this room was furnished with the most up-to-date movable-type school furniture. It is hoped that this will be but the first step in a program to refurnish the Palmer Schools.

Exterior painting was done at the High and Quabaug Schools this year. It is expected that the Thorndike, Three Rivers, and Bondsville Schools will be done this next year.

Teacher Shortage.

Unfortunately, we lost two able teachers from the high school to Springfield this year. Cities are desperate for good teachers. These are not normal times. Experienced teachers in the high school are at a premium, and Springfield salaries will lure them away. Inexperienced elementary teachers are scarce. They are in demand by cities and small communities alike. There are not enough to go around. Palmer cannot match, nor can it be expected to match, Springfield salaries; however, great care should be exerted to be certain that our teacher salary schedule remain as high as that of communities our size and high enough for our local teachers to give a longer pause before moving to Spring-

field. Those persons who have stated that local teachers do not have to be paid too much money because "they won't go anywhere else," can do some serious thinking about the two well-trained local teachers who did leave. It can happen here, and our children will be the losers. As parents, we should do some serious thinking about this.

The salary schedule was again revised to maintain a position comparable to other towns. The new schedule will become effective January 1, 1954, and is as follows:

	Bachelor's Degree or No Degree 20 Years' Experience Master's Degree		
Minimum		\$2,900	\$3,100
Maximum	\$3,800	\$4,000	\$4,200

Enrollments.

The total enrollment remains approximately the same as last year; however, enrollments are up in the first grades. Ninety-seven pupils reported in the first grades in the Park Street and Quabang Schools. As a result, another first grade was formed in the last available room at Park Street. The village first-grade enrollments dropped slightly or remained the same due to the fact that many pupils in the villages enroll in the parochial schools. It appears likely that enrollments will continue to be high at Park and Quabang; and with all classrooms now filled to capacity in these schools, other rooms will be needed next year. A town committee, made up of members of the Finance Committee and the School Committee, has been studying this problem for a year and will submit a report in time for the annual town meeting.

Town Survey Committee.

At the last town meeting, a study committee, composed of members of the Finance Committee and the School Committee, was appointed by the moderator to study school needs and report to the town. It is not my purpose to encroach upon their report, but I would like to thank the members of this committee for their intensive study and their courtesy to me during their work. Their task was not an easy one, and it is my hope that the townspeople will give the report careful study, as it is in the best interests of the school children of Palmer that it be done.

Curriculum Study.

A curriculum study committee, formed in the high school last year, made recommendations for changes in the freshman program

of studies. This committee will follow through again this year and recommend changes in the sophomore program. This study is part of a four-year plan that will enable us to bring our textbooks, materials, and curriculum offerings as up-to-date as possible. In the main, the committee recommended fewer electives, with a more prescribed balanced curriculum for all pupils.

Another study group, consisting of all English teachers, was formed this year. The aims and purposes of this group are to correlate the English program more closely from year to year; to employ better text materials; to fit the English needs more closely to the class groups; to improve the school library with selected books; and to give continued emphasis to vocabulary building, composition, and spelling. This group will meet several times this year. As a result, our English aims and objectives should be clearer; and an improvement should result in the over-all program.

New Materials.

A new science program is complete in all elementary grades.

New library books have been added in all elementary schools and the high school.

New maps and globes to accompany our social studies program have been placed in grades four, five, and six and will be completed in grades seven and eight after the first of the year.

School Entrance Age.

The entrance age for first-grade pupils is as follows:

Children who will be six years of age on or before December 30, 1954, will be eligible to enter in the fall without examination. Children who reach their sixth birthday in January, 1955, may enter upon passing an examination that will be administered at the close of the school year. Parents must call the superintendent's office on or before May 15 to register pupils for the test. Parents are asked not to ask for exceptions to this rule, since none will be granted.

Budget.

The 1954 budget represents a total increase of \$33,085.00 over last year. An analysis of this budget shows that, in the main, the increase is due to salaries, transportation, insurance, and a sum of money recommended by the survey committee to continue and expand a program of modernization of our schools.

It is the intent of the School Department that every effort will be made to operate the schools as efficiently and economically as possible.

Conclusion

In conclusion, may I take the opportunity to express my sincere appreciation to the School Committee, a loyal and helpful staff, Parent-Teacher Associations, cooperative parents and friends, businessmen, community organizations, and all others who have given the School Department their wholehearted support in its objective to provide a successful school program for your children.

Respectfully submitted,
